

It's Not Too Late to Sign up for

NASA eClips SpotLite Video Challenge Cloud Detectives

The challenge:

Produce a short video (2 minutes) confronting one of two misconceptions related to clouds, by investigating and collecting evidence, including GLOBE Clouds and NASA data.

Step 1: Pick a **misconception**.

Step 2: Make a **claim** refuting the misconception.

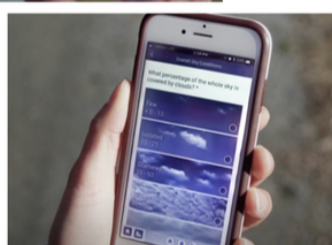

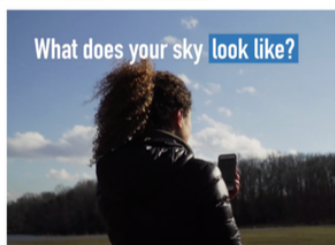

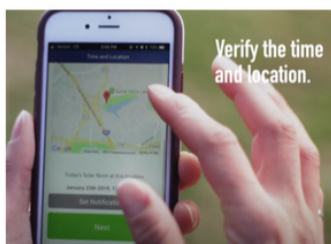

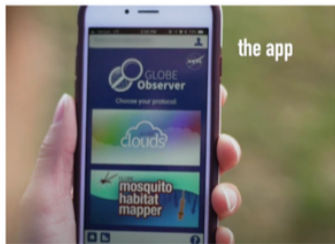

Misconception 1
All clouds produce rain

Claim: Not all clouds produce rain

Misconception 2
Clouds are made of gas

Claim: Clouds are made of water

Step 3: Investigate and make observations to **gather evidence** to test your claim. **Capture the science demonstration.**

Step 4: Plan and create your video.

Step 5: Edit your video for publishing.
